

A PARTNERSHIP FOR THE LOCAL CHURCH

Release Your Sound

Developing worshipers.
Equipping musicians. Raising leaders.

Church-based music instruction, songwriting, biblical teaching, and mentorship that help the next generation grow their gifts and serve Jesus through the local church.

Explore our ministry

Musical gifts. Spiritual maturity.

Led by Louis and Jacquelyn Groenewald

Release Your Sound is a worship and music ministry serving churches through musical development, creative expression, and biblical teaching. Our heart is to equip youth and adults to use their gifts to honor Jesus and strengthen their church community.

Our vision: developing “musicianaries”

We encourage musicians to see their gifts as a calling to serve. Through instruction, rehearsal, and relationships, students grow in ability while learning humility, preparation, teamwork, and responsibility.

Authentic Worship Expression

Our teaching draws from Louis Groenewald’s AWE curriculum, Authentic Worship Expression. Students explore the biblical foundations of worship and learn how a life surrendered to Jesus shapes the way they create, lead, and serve.

Our emphasis: biblical foundations, musical growth, creative confidence, character, community, and service.

A pathway from learning to serving.

Church-based worship schools

A setting for youth and adults to grow musical skills within Christian community. Group learning connects individual development with the experience of making music together.

Music instruction and band development

Practical instruction and rehearsals help students listen, prepare, collaborate, and understand their contribution to a band. The goal is growing musicians who can serve with confidence and responsibility.

Songwriting and creative development

Guidance helps students develop original ideas, express their faith through music, and find their creative voice alongside peers who share their passion.

Worship leadership and biblical teaching

Students learn the spiritual foundations and practical responsibilities of worship ministry, with an emphasis on humility, integrity, and accountability to church leadership.

Invest in people. Strengthen ministry.

Develop future worship team members

Create a pathway for emerging musicians to build skills and gain experience before taking on greater responsibility. Opportunities to serve are determined with church leadership as students develop.

Connect young people to church community

Music and creativity give students a meaningful place to build friendships, receive encouragement, and grow in faith. These relationships create opportunities for ongoing discipleship.

Support your worship leaders

Structured learning and rehearsal give developing musicians a place to grow outside regular worship-team practice, supporting the preparation of future team members.

Give members a concrete way to invest

Student sponsorship invites your congregation to participate in developing the next generation. Full and partial monthly gifts help students access instruction and mentorship.

A shared investment in each student.

$200 per student / per month

Funded through partnerships and student sponsorships.

Our funding approach invites churches, individuals, families, and businesses to help cover student costs. Sponsors may fund a full student placement, contribute part of the monthly cost, or give toward a shared sponsorship fund.

$200 / month	One student’s full monthly cost
$100 / month	Half of one student’s monthly cost
$50 / month	One-quarter of one student’s monthly cost
Any amount	Contributes toward student sponsorships

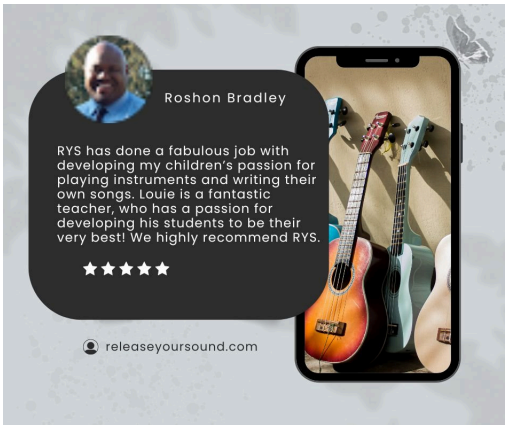

Build a sustainable funding plan

For example, 10 students require $2,000 in combined monthly funding. This can be met through recurring sponsors, church support, and other contributions. Sponsorship availability depends on secured funding commitments.

Before launch, we agree on enrollment goals, funding responsibilities, and how any remaining student costs will be covered. Our aim is to make participation accessible while sustaining the work.

Explore the students. Start a conversation.

Hear previously recorded students

Explore student recordings on the Release Your Sound Collective YouTube playlist to hear examples of past creative work. These recordings offer a window into the music and community at the heart of our mission.

Watch student recordings

What partnership can look like

Host: Provide an appropriate space and collaborate on scheduling, student recruitment, and ministry goals.
Sponsor: Invite full or partial recurring support for students.
Connect: Help students grow toward suitable service opportunities within your church.

Planning together: We clarify teaching and host responsibilities, supervision, communication, equipment needs, enrollment, and funding before beginning.

School locations: Anothen Church, Rock Hill; Lake Wylie Christian; Kingdom Life Ministries, Fort Mill.
Additional services: Leading worship, preaching, teaching, recording, production, and artist development. Recording and production are quoted separately from student tuition.

Let's discuss your church's vision
